

[Verse 1:]

Heaven presents another smash hit for Jesus,  
That keeps you rockin' when we're dropping phat masterpieces  
I pray you seek this great God you should get to know Him,  
And if you do make it known so your set can know Him  
We spit to show Him in all of His splendor  
And to share His matchless love that made me surrender  
See we celebrate the Father who would send His Son  
Because according to the text I was a wretch undone  
Lord, I was lost in sin and lovin' my ways  
Til You came to my rescue like government aid  
Sin had me in a trial just like a subpoena,  
And in Your court I couldn't stand like a leg without the femur  
So now instead of Judge Lord, I know You as Redeemer,  
You're sovereign even if there was a Hurricane Katrina  
You saved men and You placed them in the prints of your feet  
The Prince of Peace with nail prints that proves I'm free

[Hook:]

Oh, I'm free, I've never known a love like Yours before, and now  
I'm free, I've never known a life with peace and security  
But Your love restores, and breaks down the doors  
You looked passed me and saw my needs, and set me free, I'm free

[Verse 2:]

I was bound to the Law, like a husband to a wife,  
There were standards I couldn't keep, it's like I cheated every night  
Which made sin prevalent, bringin' death to life  
And provided me with the evidence we're in a losing fight  
And like marriage, only death severs ties to the Law,  
Knowing this Jesus stepped in and provided for your boy  
He lived a perfect life fulfilling standards and perfection  
And gave men grace through His death and Resurrection  
Now if we'd only take turn for the better and realize  
That the cravings of the flesh will never let up  
Then we see that cheddar in the possession of our mortal eyes hail  
When compared to the One immortalized  
So now thanks to Christ I'm not an orphan like Annie  
Because God adopted me and made me part of His family  
Me and God are reunited and it feels so good,  
I praise God for the day that Keynon brought me good news

[Hook:]

Oh, I'm free, I've never known a love like Yours before, and now  
I'm free, I've never known a life with peace and security  
But Your love restores, and breaks down the doors  
You looked passed me and saw my needs, and set me free, I'm free

[Verse 3:]

We see ordinary people getting lifted by John Legend,  
But this is when we get excited writing about John's legend  
John 1: 14 meet the Word in the flesh,  
Christ perfect in His person placing burdens to rest  
But I'm free, no condemnation for me  
Because I'm crucified with Christ, plus His love delivered me  
God loved us enough that He would give His only kid,  
Jesus came to live the perfect life that none of us could live, and I'm free

[Vamp:]

There was a time when my heart was on the line  
All of my hope was gone and my soul was out of time  
But Your love restores and breaks down the doors  
You looked passed me and saw my needs, and now I can say, I'm free

[Hook:]

Oh, I'm free, I've never known a love like Yours before, and now  
I'm free, I've never known a life with peace and security  
But Your love restores, and breaks down the doors  
You looked passed me and saw my needs, and set me free, I'm free
