

When I saw you in my dream last night  
You were there but something wasn't right  
It felt like we were slipping through my hands  
I wake up and I understand

I don't know what you do to me  
It remains a mystery  
Repeat it  
Repeat it

Are we running in circles  
Are we waiting in line  
I wonder is it all just make believe  
Are you taking me for a ride

Are we running in circles  
Are we back to the start  
Whenever I ride this carousel  
It always breaks my heart

You should be feeling it right about now  
You've been busy as you're looking down  
All the questions running through your mind  
It's spinning faster than the speed of time

Stay for a little while  
Will you stay for a little while  
I've been waiting for the music to start  
Do you just wanna get off

Are we running in circles  
Are we waiting in line  
I wonder is it all just make believe  
Are you taking me for a ride

Are we running in circles  
Are we back to the start  
Whenever I ride this carousel  
It always breaks my heart, heart, heart, oh

Tell me baby why  
Are we livin in our dreams  
Tell me where we are

Are we running in circles, ooh  
Tell me is it all just make believe  
Can you look me in the eye

Are we running in circles  
Are we back to the start  
Whenever I ride this carousel  
It always breaks my heart, oh...
