

Where To Go From Here

Teddy Thompson

The safe lie of the in between
I never lose but never win
I wait at the edge of life
I want to miss what might surprise

It's hard to know where to go from here
Hard to know where to go

Time is a waste of me
I'm up at noon for nothing real but I know
That I'm wasting it
It comes on once there's no repeat

It's hard to know where to go from here
Hard to know where to go

Turn away, it's what I chose today
Turn away, is not the same as I give in

It's hard to know where to go from here
Hard to know where to go
It's hard to know where to go from here
It's hard to know where to go
