

## Afternoon Hustle

Teedra Moses

All around the world  
(Yeah, love how you move)  
All around the world  
(I wanna take you to Art Basel, some shit like that)  
All around the world  
Boys stare, girls twirl

Damn you're trigger happy (Bang, bang!)  
So happy to see me  
Got your foot down on the gas  
Won't you slow it down a little baby?  
Let the music play  
To the be-beat of your arms baby  
As my body starts to sway  
I'ma slow it down a little for you

Cognac and conversation  
Sky miles, we flying high  
We're international  
We're galaxies beyond

Wassup Hustlies, it's your girl Felisha Monet  
That's my girl Teedra Moses, Cognac & Conversation featuring Rick Ross and we all need that, right?  
Cognac, definitely, and conversation  
If you don't have the album, make sure to get it  
It is available: iTunes, in the stores, you need it in your life!
