

# Flashing Lights

Teedra Moses

I had a love  
But he ran away  
Tried everything I could  
But I could not make him stay (flashing lights, caught up in the lights)  
I guess it was the lights  
(Flashing lights, caught up in the lights)  
He was my world, my everything  
Thought one day he could give me a wedding ring  
(Flashing lights, caught up in the lights)  
He wanted the lights  
(Flashing lights, caught up in the lights)

The center of attention  
All these beautiful distractions  
From every direction  
I know you hate to see those  
(Flashing lights, caught up in the lights)  
Can't wait to see those  
(Flashing lights, caught up in the lights)

Kinda going through the motions  
Trying your best not to notice  
Something ain't right and she knows it  
And at that exact moment the phone calls  
(Flashing lights, caught up in the lights)  
That's from her hard [?]  
(Flashing lights, caught up in the lights)

I want a love, a love so real  
Nothing superficial I need something I can feel  
(Flashing lights, caught up in the lights)  
But you just want the lights  
(Flashing lights, caught up in the lights)  
Lost in a world, a world so cold  
Tell me that you'll be black jacket I need for my soul  
(Flashing lights, caught up in the lights)  
I don't want the light  
(Flashing lights, caught up in the lights)

(Flashing lights, caught up in the lights)  
(Flashing lights, caught up in the lights)

(Flashing lights, caught up in the lights)  
(Flashing lights, caught up in the lights)  
It won't last forever  
Tell me you'll leave never  
Hold me, show me  
We'll always be together

(Flashing lights, caught up in the lights)  
(Flashing lights, caught up in the lights)

[?]  
Tell me, "I'm your lover"  
Hold me, show me  
There's no need to wonder

(Flashing lights, caught up in the lights)  
(Flashing lights, caught up in the lights)
