

# Open Still

Teedra Moses

I fuck with you 'cause I thought that you were cool  
I fuck with you 'cause I thought that you were tough, tight to  
stay true  
I realized your foolish shit too  
I'm so pissed off with myself  
How did I get next to you?

Makes me wanna run away, away from love  
'Cause I don't wanna feel the pain, the pain of love  
But I won't be the lonely one (my heart's open still)  
You're gonna be the lonely one (if you don't open your heart)  
I won't be the lonely one (my heart's open still)

I fuck with you 'cause I thought that you were cool  
I fuck with you 'cause I thought about the love I might do if I  
choose  
But realized you make all the rules  
And I'm not in this by myself  
What are we gonna do? (What are we gonna do, what are we gonna  
do)

I won't let you run away, away from love (won't let you run awa  
y)  
My apologize sometimes it ain't enough  
But don't make me the lonely one (my heart's open still)  
You're gonna be the lonely one (if you don't open your heart)  
Don't make me the lonely one (my heart's open still)  
Open still (it's open, it's open still)  
My heart is open still, open still... [repeat till end]
