Teedra Moses

When those are having a baby
My cousin can't get a job
He's so frustrated
He drinks so well all his problems
Play him a song
And let him know he can go
Play him a song
And let him know he ain't alone

Damn the radio
They don't play song I like no more
Hey Mr. Radio
I just wanna hear good music

He was her first love
She didn't know
How could she know?
She gave it all up
He fucked her up, he fucked her up
Play her a song
And let her know she ain't alone
Play her a song
And let her know she can go

Damn the radio
They don't play song I like no more
Hey Mr. Radio
I just wanna hear good music

Free your mind
And everything will follow won't you
Free your mind
And everything will follow won't you
My nigga just melt down
My nigga just melt down
My nigga just melt down
My nigga just melt down
My nigga just melt down
Free your mind
And everything will follow won't you
Free your mind
And everything will follow
Free your mind
And everything will follow won't you

Damn the radio
They don't play song I like no more
Hey Mr. Radio
I just wanna hear good music
Damn the radio
They don't play song I like no more
Hey Mr. Radio
I just wanna hear good music

Free your mind
And everything will follow
Free your mind

And everything will follow
Free your mind
And everything will follow
Free your mind
Free your mind
And everything will follow
Free your mind
And everything will follow if you
Free your mind
And everything will follow if you
Free your mind, free your mind, free your mind

Free your mind
And everything will follow, won't you?
Won't you?
