

# Something Real

Teedra Moses

In the end, you're gonna need somebody, gonna wanna feel real love  
When it's all said and done  
You're gonna wanna find your soul, gonna wanna lose control  
All I'm saying is  
Try me  
Ain't no one like me  
For you baby

He made me from your rib, what you think this is?  
I'm here for you  
All you gotta do is try me  
Try something real this time

Possibilities for you and I  
We can have a boy or girl, form a dynasty rule the world  
Like the Pharaohs from ancient Egypt time  
It was written in the book of love  
It was always meant for us  
All I'm saying is try me  
Ain't no one like me

He made me from, He made me from your rib  
He made me from your rib, what you think this is?  
I'm here for you  
All you gotta do is try me (try me, try me, try me)  
Try something real this time

(Ooohhh)

'Cause there comes a time  
In everyone's life when you need a safe place to be vulnerable  
And I was thinking maybe I could be that for you  
And you could be that for me  
I mean maybe we be the missing pieces  
Maybe you're just what I've been needing  
To get me where I've been dying to go  
And maybe I'm what you been needing to get you where you been dying to go  
But I'm saying  
I'm ready for love
