

Not Ok

Teenage Bottlerocket

I don't feel alright I've got a sick feeling inside
And now it's happening again
Feels like the walls are closing in
Now I'm getting sick of all the stupid things you do
The promises you made but never followed through
And I'm surprised you got this far with your IQ
You gotta get it through your head
It's not OK you can't keep fucking around with me
It's not OK you're getting on my nerves constantly
It's not OK I wish that you would just let me be
The time has come and gone for you to see
That it's not OK

I don't feel alright, I've got a sick feeling inside
And now it's happening again
Feels like the walls are closing in
Now I'm getting sick of all the stupid things you do
The promises you made but never followed through
And I'm surprised you got this far with your IQ
You gotta get it through your head
It's not OK you can't keep fucking around with me
It's not OK you're getting on my nerves constantly
It's not OK I wish that you would just let me be
The time has come and gone for you to see
That it's not OK

I tried to tell myself that it would be alright
But I can't think when I can't sleep at night
I can't sleep at night
You gotta get it through your head
It's not OK you can't keep fucking around with me
It's not OK you're getting on my nerves constantly
It's not OK I wish that you would just let me be
The time has come and gone for you to see
That it's not OK
