

## Smile

Télépopmusik

Had you there in the palm of my hand.  
Saw that smile you give that girl.  
Haven't seen that smile such a long time.  
Don't do this to me, again.

I watched you laugh when you walked out through door,  
Couldn't save you from yourself.  
Haven't seen that smile for such a long while.  
Don't do this to me again.

So I went out,  
to find out what I was looking for.  
Found the key,  
key to our door.  
It's all of your lies.  
Still I can't forget.  
Don't do this to me again.

Had you there in the palm of my hand.  
Saw that smile you give that girl.  
Haven't seen that smile such a long time.  
Don't do this to me again.  
Don't do this to me...  
... again.
