

It's All Coming Out

Temples

Have you heard
What is happening?
Have you noticed
What is going on here?
Have you seen it?
Been a witness?
Can you feel it?
It's all coming out clear

See it unravel
Let's make an example
No need to scream and shout
It's all coming out

See the boredom
On their faces
No one ever
Cares as much as you do
Everybody
Has a story
And their story
Means nothing to you

No need to worry
No need to feel sorry
There's never a hurry
There's no need to rush about
It's all coming out

I used to live in fear but now
I made my way out
It's all coming out

It's all coming out

It's all coming out
It's all coming out
It's all coming out

It's all coming out
It's all coming out
It's all coming out
It's all coming out
