

## Think Of Tomorrow

### Ten Foot Pole

Looking in the mirror what's left to see  
Fragments of life all the pieces are broken  
The skyways open to conquer the moon  
I'm going to get there just watch me  
Maybe tomorrow I'll think of tomorrow  
Inspiring words  
The Dai Lama prays for us  
Oppressor and friend  
Human understanding  
We can build a better world  
Oceans of wisdom  
Speak out loud  
We'll think of tomorrow  
Tomorrow's children  
Come out and play  
When I have a kid of my own  
What will I teach him?  
Prepare him to be alone  
Because some day he'll be all alone  
I have tried all my life to find the answers  
But the only truth is what you feel inside  
What's inside?  
When will we ever get along?  
I sit by wondering  
Environmental consciousness  
You heard it all before the present time is our  
Future  
Think think of tomorrow  
Tomorrow's children come out and play
