

Slip Slide Away

Ten Years After

Tides and passage of time
Life is passing you by
Can't turn back tides
And the clock keeps on ticking away

Hurt, you don't have to hurt
Hey, no need to cry

Can't live on a memory
Expecting the moment to stay
Look to the future
Don't hang on to sad yesterdays
Let 'em slip slide away, slip slide away

Smile, was that a smile
Try, you just have to try

Lie here beside me
And stay in my arms for a while
I'm here to help you
Forget all the heartbreak and pain
Let 'em slip slide away, slip slide away

Tides and passage of time
Life is passing you by
Can't turn back tides
And the clock keeps on ticking away

Look to the future
Don't hang on to sad yesterdays
Let 'em slip slide away, slip slide away
Can't turn back tides
And the clock keeps on ticking away
Look to the future
Don't hang on to sad yesterdays
Let 'em slip slide away, slip slide away
