

Time to Kill

Ten Years After

I'm coming on the limit
down the one way track
I hit the city limits
Never looking back

I tried to take it easy
Shift on down the gear
I'd like to smell the roses
before they disappear

Just around the corner
Just across the hill
If I could be the clock
I'd find some time to kill

I need a long location
further our day
The dreams that I've been chasing
I just step away

I wish I had a second
Right now I gotta run
I still got miles to go
before this day is done

Just around the corner
just across the hill
If I could be the clock
I'd find some time to kill

[SOLO]

I need to take it easy
Shift on down the gear
I gotta smell those roses
before they disappear

Just around the corner
Just across the hill
If I could be the clock
I'd find some time to kill

Just around the corner
Just across the hill
If I could be the clock
I'd find some time to kill

I'd find some time to kill
[if I could be the clock]
I'd find some time to kill
[if I could be the clock]

I'd find some time to kill
