

Angel Of Darkness

Ten

She's a machine gun coming
With the sun at her back
She's like a racehorse running
Like a train off a track
You can't escape
Better get what you need
For there's a full moon rising
'Man have you gotta bleed!'

Her kind of body's
Like a loaded gun
She's like a hunter in the shadows
Till the daylight comes
So make your peace
With your god and succumb
For this assassin won't sleep
And you've got no where to run

The Angel of darkness
Will tear you apart
Just to bury your soul
She'll kill you regardless
Possess and accost you
The controlling host

The Angel of darkness
A city this heartless
Devours you whole
The sins of the father
The son, leave you lost
Another holy ghost

With such a high spec
No one takes their eyes off her ass
She's like a bonafide angel
As a matter of fact
Visual tease
Aphrodisiac
But when this thunder bolt hits
She knocks you flat on your back

A silent death
You never see nor hear
She severs flesh from bone easy
No remorse or tears
You think she's hot
Comin' on so strong
But she's a psychopath feeding
Only leading you on

The Angel of darkness
Will tear you apart
Just to bury your soul
She'll kill you regardless
Possess and accost you
The controlling host

The Angel of darkness
A city this heartless
Devours you whole
The sins of the father
The son, leave you lost
Another holy ghost

She's like scene from a wet dream
Sexed to the seams
She's got all the right tools
For all the right needs
You sense her mood
Swing from grey into black
And what's about to go down
Is a frontal attack

You better pray
That end comes quick
This nymphomaniac's crazy
One demonic chick
She's says 'Tonight you can pay
With your blood"
And in a razorblade minute
You'll be coughing it up

The Angel of darkness
Will tear you apart
Just to bury your soul
She'll kill you regardless
Possess and accost you
The controlling host

The Angel of darkness
A city this heartless
Devours you whole
The sins of the father
The son, leave you lost
Another holy ghost
