

Good God In Heaven What Hell Is This

Ten

You should come clean but won't confess
You're bloody minded
Don't care how much I protest
You ridicule the way I dress
I shaved my head because
You said it was a mess

When all is said and done, if two hearts
Can't beat as one we're on the Death Star
Why hang around to just reminisce?
This love is dead, we took it too far
Down hill, no brakes, we're in a go-cart
Good God in heaven what hell is this?

You have no common decency
Your lies in hyper drive
Have passed infinity
No privacy, no secrecy
Oh, that's why your friends
Question my masculinity

When all is said and done, if two hearts
Can't beat as one we're on the Death Star
Why hang around to just reminisce?
This love is dead, we took it too far
Down hill, no brakes, we're in a go-cart
Good God in heaven what hell is this?

If it's real you'd feel the same
But you're poison in my veins
I'm invisible these days
You don't feel my pain?

When all is said and done, if two hearts
Can't beat as one we're on the Death Star
Why hang around to just reminisce?
This love is dead, we took it too far
Down hill, no brakes, we're in a go-cart
Good God in heaven what hell is this?

When all is said and done, if two hearts
Can't beat as one we're on the Death Star
Why hang around to just reminisce?
This love is dead, we took it too far
Down hill, no brakes, we're in a go-cart
Good God in heaven what hell is this?
My good, good God in heaven
What hell is this?
