

Her body shaped the mold for se**** lines
A priceless bottle of a timeless wine
The way she walks is natural crime
Erotic movement of the finest kind

She's machined hydraulics in motion
Residual
A supreme narcotic devotion
On visual

She runs her body clock on sensual time
Perfect biology, a treasure find
A fading world decays in her eyes
Aurora Borealis dims and dies

Her supreme bionics go way
Beyond physical
Beating heart, pulse racing, I'm verging
On critical, yeah

In her 'blow your mind' bodice
With 'Kryptonite' bows
This statuesque goddess
Can knock you out cold
My se**** solace
She lives and breathes tonight

She's sublime in seamed stockings
And heels, as light shows
Suspender lines flashing
Through fibre tight clothes
Tendrulous light
Making all those dreams of mine
Intensify

She gives a natural urge mercurial rise
Can't look away from something so damn fine
And that explains why girls are just as inclined
I look her over, check her vital signs

To resist is like fighting a war and
I've lost the will
In the mist of lust, sex and emotion
I love her still

In her 'blow your mind' bodice
With 'Kryptonite' bows
This statuesque goddess
Can knock you out cold
My se**** solace
She lives and breathes tonight

She's sublime in seamed stockings
And heels, as light shows
Suspender lines flashing
Through fibre tight clothes
Tendrulous light

Making all those dreams of mine
Intensify

Intensify
Yeah, yeah
Yeah, yeah
Yeah

In 'blow your mind' bodice
'Kryptonite' bows
Statuesque goddess
Knock you out cold
se**** solace
Lives and breathes tonight

She's sublime in seamed stockings
Heels, as light shows
Suspender lines flashing
Fibre tight clothes
Tendrillous light
All those dreams of mine
Intensify

In her 'blow your mind' bodice
With 'Kryptonite' bows
This statuesque goddess
Can knock you out cold
My se**** solace
She lives and breathes tonight

She's sublime in seamed stockings
And heels, as light shows
Suspender lines flashing
Through fibre tight clothes
Tendrillous light
Making all those dreams of mine
Intensify
