

## Into Darkness

Ten

A cinematic masterpiece  
In ashes on the mantelpiece  
A luminescence time could never fade  
A critically acclaimed release  
An Oscar nominated piece  
In which I had a cameo to play

From the cradle, as we grow, love is born  
Where the memories we find  
On the lost and lonely side, hide  
Like the angels cast on snow-covered lawns  
So the treasures of life  
Guide the way every day... oh, baby

Into darkness, movie starlets  
Spin as the celluloid finds a frame  
Click of the reels as they spool and wind  
Into darkness, screen lit starkness  
Check if the rushes look fine today  
Scene after scene ticking time away  
History's made as we cut to the fade and then die  
High

So turn the house lights down again  
The scenes we screen are feature length  
The life and times, now scripted and complete  
I know that each PG to rated 18  
Is worth more now than it's ever been  
For trailers never look the same to me

From the cradle, as we grow, love is born
