

Is There Anyone With Sense

Ten

With nine:eleven (9:11) so engrained
The London Underground in flames
In Peshawar, the children slain
Paris and Moscow Metro shames

Is there anyone with sense in here tonight?
Are we strangers in our homeland, petrified
To repatriate the migrants in their millions
Understand I'm a man on a mission
Make a change or face extinction

Get your asses off the fence and claim the right
To protect our very homes, this way of life
Simple patriotic faith embraced by billions
In this land we condemn terrorism
Casting out fear based religions

The time has come, all things must change
For Charlie Hebdo, Hijacked planes
Embassy sieges, Madrid trains
And Luxor Massacre remains

Is there anyone with sense in here tonight?
Are we strangers in our homeland, petrified
To repatriate the migrants in their millions
Understand I'm a man on a mission
Make a change or face extinction

Get your asses off the fence and claim the right
To protect our very homes, this way of life
Simple patriotic faith embraced by billions
In this land we condemn terrorism
Casting out fear based religions
