

Till the End of Time

Ten

Girl I love you more than words can say
If I lost you then my heart would break
You are part of every breath I take
Till the end of time
Girl I never want this night to end
You're my everything, my only friend
I will never love this way again
Till the end of time

End of time, end of time
I love you so, I can't let go
No I wouldn't even try
So tonight don't you cry
This heart and soul you have and hold
Till the end of time

There are moments in our nights and days
When the world can seem so far away
Here beside you where I want to stay
Till the end of time

End of time, end of time
I love you so, I can't let go
No I wouldn't even try
So tonight don't you cry
This heart and soul you have and hold
Till the end of time

I love you so
No matter where you go
Till the end of time
