

# When Only Love Can Ease the Pain

Ten

This love is more than just emotion  
This love is so true  
If I lost you I don't know  
What I would do  
Believe me the pain would  
Break me in two

This love is wider than the ocean  
Run silent, run deep  
I know better than question  
Reason with truth  
When no one can hold a  
Candle to you

When you say don't ever leave me  
You know I never will  
So I ask you to believe me  
If the dark leaves you afraid  
I'll light your way

When only love can ease the pain  
Reach for my hand  
I will help you to your feet again  
I'll be beside you along the way  
I'll be here till my dying day  
When only love can ease the pain  
Only love

There is so much to love about you  
How can I begin  
To explain all the reasons  
Leading me to  
Unquestioning love  
Believing in you

I wonder if I ever told you  
You mean the world to me  
It's my destiny to hold you  
When you tremble or despair  
I will be there

When only love can ease the pain  
Call out my name  
I will run to kiss the tears away  
And if you need me to hold you darling  
I will never turn away  
For my love to take the strain  
When only love can ease the pain

When only love can ease the pain  
Call out my name  
I will run to kiss the tears away  
And if you need me to hold you darling  
I will never turn away  
For my heart to take the strain  
When only love can ease the pain  
Only love

Only love
