

I got a little bit left
I know that I can give a little bit up
I got a little bit left
I know that I can give a little bit up

It's starting all over again
I feel my heartbeat quickening
I make a mistake, they all missed it
He's prowling around in the night
Into his shadow wherever we go
Whatever I need to survive

We go down, down to the deep void
Right back into place, I can breathe again
We go down, down to the beat, boy
Right back into place
From where we are, we're never gonna come back
From where we are, we're never gonna come back

I am ecstatic like a hymn
And let the feelings disappear
Apocalyptic, my own mistake
I'm moving right into the end
Into his shadow, wherever we go
Our futures again and again

We go down, down to the deep void
Right back into place, I can breathe again
We go down, down to the beat, boy
Right back into place
From where we are, we're never gonna come back
From where we are, we're never gonna come back

I got a little bit left
I know that I can give a little bit up
I got a little bit left
I know that I can give a little bit up

We could die tonight
We could die tonight
Oh my God, I feel like I'm dying
Die tonight
We could die tonight
Oh my God, I feel like I'm dying

From where we are, we're never gonna come back
From where we are, we're never gonna come back
From where we are, we're never gonna come back
From where we are, we're never gonna come back
