

Show Us Love

Tenth Avenue North

So here we are
Here we stand
We raise our songs
We raise our hands
It's not for ourselves
It's our only plea
Yea let our worship burn in response to thee

So here we are
Here we stand
We raise our songs
We raise our hands
It's not for ourselves
It's our only plea
Yea let our worship burn in response to thee

Show us love that we can't keep silent
Cleansing love that won't leave us the same
Take our love that tries to protect us
Give us love for the glory of Your name

By grace we wait
And hope we stand
With broken hearts
And empty hands
Come draw near us now
You're all we need
Yea let our hearts cry out as we long for thee

Show us love that we can't keep silent
Cleansing love that won't leave us the same
Take our love that tries to protect us
Give us love for the glory of Your name

How long and high and deep and wide's Your love [echo]
How long and high and deep and wide's Your love
How long and high and deep and wide's Your love [echo]
How long and high and deep and wide's Your love

Show us love that we can't keep silent
Cleansing love that won't leave us the same
Take our love that tries to protect us
Give us love for the glory of Your name

Come draw near us now
You're all we need
Give us love
Your name
