Termandology

"I want you to float, float, float, float"  
"I want you to float, float, float, float"

Uhh, uhh

Come and float with me, come and smoke with me  
Have a toast with me, put your dutch in the air  
Come on and smoke with me  
I get so high I dive through the clouds  
So I need a parachute just to come back down  
And I float - float through the town  
The top is rolled back, the windows rolled down  
And I smoke about a O a day, nothin' but that dro and haze  
On that Remy shit, high till I hit the cage  
And I blazed since 93, so why change  
My eyes red, my cop filled like Lil Wayne  
I can feel the raindrops when I'm gettin' wet  
Come and get with the kid, cause I want you to "float"

Come and float with me - "float"  
Come and smoke with me - "float"  
We get so dizzy - "float"  
We don't need no crissy - "float"  
Come and float with me - "float"  
Come and smoke with me - "float"  
We get so busy - "float"  
We could get so pissy -"float"  
Come and float with me - "float"  
Come and smoke with me -"float"  
We get so dizzy - "float"  
We don't need no crissy - "float"  
Just a little purple rain and a dutch - "float"  
Tell Scotty he can beam me on up, cause -"float"  
"I want you to float"

Your boy Term float through like Casper  
I got my dutch with me, but it ain't my master  
I smoke heavy, even with my pastor  
Might cough up a lung, but it ain't my astma  
The ice in my cop look like Alaska  
I ain't lookin' at you dudes, I'm lookin' past ya  
You tryin' to flow, was the question I asked ya  
I can tell in the face you want me to go faster  
I smoke like the barrel, float like the clouds  
Toke like tical, even Meth know my style  
I got trees for sale, blazed as hell  
Come though half baked like Dave Chappelle  
And I "want you to float"

Picture the kid sittin' back on a lake  
Puffin a corona grape, sippin' a Corona straight  
I never like to the sesamille go to waste  
So you politic on the L you know I'm gonna hate  
Saw this Barbie, chillin' up the Kenasea  
Said she wanna kick it and smoke with Term Marley  
After we uhh, shorty prolly adore me  
But I left her out of space, so she can't even call me

I float - float like Harley  
Or float like Cypress Hill throwin' a party  
It's something, something, something, something and something  
And then I chica, chica, uh, uh, uh-uh  
Cause "I want you to float"
