

## Bitch Like You

Terminal Choice

I'm living with you but I'm living a life  
I wanna go down and you wanna go high  
It's not what I want cos I wanna be free  
You live in your cage but that's no place for me

I'm on the way  
Now I'm on the way  
Now I'm on the way to show what I really need

I feel just too young  
to waste the rest of my life  
with a bitch like you  
You better shut your mouth  
I don't wanna see you again  
It's written all over my face

I really hate you  
I really hate you  
I really do  
Cos there's nothing you can give me  
that makes me feel like loving you
