

I Want You

Terminal Choice

Everything is black
I can see no sun
I enjoy my depression
the pain that captures me
broken dreams in my head
broken feelings in my heart
I had to leave her
cause I want you

I want to have you in my arms
I want you near
I want you dear
can't you understand
I can't live without your smile
my body cries I want your love
so don't refuse me

since I saw you
I had this wish
to talk to you
to get to know you
you paralyze me with your eyes
my little black witch
let me be your slave
but someone else captured me
I don't want her anymore
I had to break all these chains
cause it's you I'm longing for

I want to have you in my arms
I want you near
I want you dear
can't you understand
I can't live without your smile
my body cries I want your love
so don't refuse me
