

Cowboys in This Town

Terri Clark

Still got dirt on boots & blue on collars
Still got work to do & hard earned dollars
Still got two for ones & one tap beer
Cause that's what you get around here

And we still got cowboys in this town
Still got the real Mccoys making outlaw noise
Gonna drink that paycheck down on Friday night
Yeah we still got cowboys in this town
Kicking up dust on gravel ground
Might be a middle of nowhere one horse one stop light with a Te
xaco sign
But we still got cowboys in this town

Still got the main street girls in the faded out blue jeans
The kind that like to dirt road dance around in the high beams
No they don't give a damn about the city life
Want a man that'll treat em right

And we still got cowboys in this town
Still got the real Mccoys making outlaw noise
Gonna drink that paycheck down on Friday night
Yeah we still got cowboys in this town
Kicking up dust on gravel ground
Might be a middle of nowhere one horse one stop light with a Te
xaco sign
But we still got cowboys in this town

If you're looking for a good time
Yeah we'll gonna keep you up all night

Cause we still got cowboys in this town
Still got the real mccoys making outlaw noise
Gonna drink that paycheck down on Friday night
Yeah we still got cowboys in this town
Kicking up dust on gravel ground
Might be a middle of nowhere one horse one stop light with a Te
xaco sign
We still got cowboys in this town
