

Feelin' Pretty Good Right Now

Terri Clark

Don't need another drink baby I'm just right
I don't need another anything, anything
I've got everything, everything right here
I don't want to go anywhere else tonight
Yeah baby I'm loving this loving this
I could take a little more it

Cause I'm feelin' pretty good right now
Chillin' right here with you baby
Watchin' that sun go down
Buzzin' on a slow kind of crazy, crazy
Pour me a little bit more of you
Now that's what I'm talkin' about
You got me feelin' pretty good
Feelin' pretty damn good right now

We can let that candle burn on down
We don't need it any how any how
The moon is out and looking good on
What you got going just keep it going on
Cause it's workin' on me workin' on me
Better than the whiskey

Yeah I'm feelin' pretty good right now
Chillin' right here with you baby
Watchin' that sun go down
Buzzin' on a slow kind of crazy, crazy
Pour me a little bit more of you
Now that's what I'm talkin' about
You got me feelin' pretty good
Feelin' pretty damn good right now

Friends are calling trying to get us to go down town
As good as that sounds I'm gonna have to turn'em down

Cause I'm feelin' pretty good right now
Chillin' right here with you baby
Watchin' that sun go down
Buzzin' on a slow kind of crazy, crazy
Yeah pour me a little bit more of you
Now that's what I'm talkin' about
You got me feelin' pretty good
Feelin' pretty damn good right now

Feelin' pretty good right now
Feelin' pretty good right now
