

Feel The Pain

Terror

Running from everything that you've ever known.
Nothings adding up, never been this low.
About time to start picking up pieces, and think about reasons
of why you ended up here.
Feel the pain, you need something to live for and something to
die for or you're gonna drown in the.
Misery.
Feed off the adversity.
Bury your defeats or you'll never make it through.
Feel the pain, you need something to live for and something to
die for or you're gonna drown in the.
Misery.
Feed off the adversity.
Bury your defeats or you'll never make it through.
You'll never make it through.
Falling through the cracks.
Nothing left to grasp, but you won't cave in.
They're pushing you, and testing you.
But you won't cave in.
You can't cave in.
They're pushing you.
They're testing you.
You won't cave in.
Feel the pain.
You need something to live for and something to die for.
Or you're gonna drown in the.
Misery.
Feed on the adversity.
Bury your defeats or you'll never make it through.
