

## Kill 'Em Off

Terror

Don't let this sink in  
Just got to shut it out  
Draw the lines and cut the chord  
Won't let you cross into my world

Take one more step  
Just one more step  
I've got to shut you out

Pathetic fake smiles  
Of the plastic youth  
We all know in your picture perfect world  
There's some ugly f\*cking truths

Take one more step  
Just one More step  
I've got to shut you out

Everybody's talking about this & that  
But I couldn't care less what they say  
Just when you thought you figured it out  
I'm laughing in your face

Kill 'em, all, kill 'em off  
Got no love for the insincere  
Kill 'em all, kill 'em off  
One by one they disappear

No allies, I won't take the bait  
Won't conform, you're everything I hate  
No allies, I won't take the bait  
No more
