

Less Than Zero

Terror

I can't believe you sunk this low, so low
You pushed too hard and lost control
Now death is reaching for your hand
and when theres nothing left
you start reaching back
Shoveling shit up your nose
Needle to your arm
Less than zero
The bottle calls
You run to it
and I need it too
anything to forget

Self destruct
You're killing yourself
You gotta fight
Pick yourself back up

And man I've been there too
Numbing my broken dreams
and the love that I've killed

You're killing oyurself
You gotta fight or you will

Self destruct

I'm scared of me
I'm scared of you
because we will

Self destruct
