

One Blood

Terror

One blood strengthens the roots • look inside these walls for the living proof • one blood strengthens the roots • if you don't know by now you better find the truth • inside these walls, no dividing lines • we don't believe them, been told a thousand lies • we don't judge you, we won't cast you out • we fight for freedom, we're bringin' it down • one blood strengthens the roots • look inside these walls for the living proof • one blood strengthens the roots • if you don't know by now you better find the truth • loud and clear, i am not on your side • won't extend my hand, no fake smile • it's so f*cking pitiful, you're lost in hate • i'm holding tight to the truth so i can't relate • one blood strengthens the roots • look inside these walls for the living proof • one blood strengthens the roots • if you don't know by now you better find the truth • one blood, one truth • no tolerance, no tolerance • your ignorance must be stopped • no tolerance, no tolerance • no more words, no more talk
