Survival Comes Crashing In

Terror

Focused mind
I move on desperately
Can't lose myself for all that I see
Guarded by a will that never dies
Gotta break out, can't escape without a fight

Fight so hard just to get by Confusion tries my peace Fight so hard just to get by Survival comes crashing down on me

So many answers I just could not find So I roll with the lows and the highs Gotta break out, can't escape without a fight

Hope gives birth to strenght Strenght breaks through the loss, the greed Got to break out, got to move on Cause what was, will never be

Got to break out
Got to take some pain
Survival crashes in
Down on me
Survival
Comes down on me
Survival
