You look straight and I smile way Watching streets go by Avenues we've met today Are renewed and I Play the game till bitter end It is closer now Engine's off and I turn back Goodbye

It's not loving
It's not loving
It's killing time

We fall We falling down

Well I have no one Left to rely The morn' is broken Into my eyes And I leave autumn My life to decide

It's not loving
It's not loving
It's killing time
