

## Like You Used To

Tessa Violet

It's hot before the rain comes  
It's cool once its passed  
The winter was a long one  
But the summers come at last  
We were driving round and round  
Just to see what we would see  
When you think of fireflies  
Do you ever think of me?  
Kiss me like you used to  
Show me that you care  
I can't help but miss you  
When I feel that summer air  
Do you remember  
Meeting on pine and sand  
You kept bumping into me  
Just so you could hold my hand  
You said that I was just alright  
I said you're just okay  
What I really meant was  
Please don't ever go away  
Kiss me like you used to  
Show me that you care  
I can't help but miss you  
When I feel that summer air  
I would like to kiss you  
When I feel that summer air  
Winter came, the days grew short  
And you stopped calling me  
So I let you go your way  
But I kept our memories  
Kiss me like you used to  
Show me that you care  
I can't help but miss you  
When I feel that summer air  
I would like to kiss you  
When I feel that summer air
