

# Not over You

Tessa Violet

You call me up  
Say that you've been busy  
But something made you just reach out  
And we meet up  
Tell each other stories  
'bout how we been since we last talked  
Our coffee date  
Moves into the evening  
We wonder how it got so late  
We walk around  
And I keep asking how  
I don't know better by now

You try but you can't shake me  
I think we're going crazy  
Keep saying that we're through but  
Baby I'm not over you  
We're quick to go attack  
But when we split I need you back and  
I tell myself we're though but  
Baby I'm not over you  
You're the one it's gotta be and I  
Gotta get ya next to me  
You try but you can't shake me  
I think we're going crazy  
Keep saying that we're through but  
Baby I'm not over you

You wear your clothes  
Like you're trying to impress me  
But I just think you're over dressed  
You roll your eyes  
Cause I keep my room messy  
And you think we're too old for that  
But I gotta know  
How you can tweet but you can't text me  
You say that I just need control  
We go around  
And I keep asking how  
I don't know better by now

You try but you can't shake me  
I think we're going crazy  
Keep saying that we're through but  
Baby I'm not over you  
We're quick to go attack  
But when we split I need you back and  
I tell myself we're though but  
Baby I'm not over you  
You're the one it's gotta be and I  
Gotta get ya next to me  
You try but you can't shake me  
I think we're going crazy  
Keep saying that we're through but  
Baby I'm not over you

Now you say choose it my favorite music

We dance round my bedroom floor  
Run to the store and pick up snacks for  
A movie we can ignore

You try but you can't shake me  
I think we're going crazy  
Keep saying that we're through but  
Baby I'm not over you  
We're quick to go attack  
But when we split I need you back and  
I tell myself we're though but  
Baby I'm not over you  
You're the one it's gotta be and I  
Gotta get ya next to me  
You try but you can't shake me  
I think we're going crazy  
Keep saying that we're through but  
Baby I'm not over you  
Baby I'm not over you  
Baby I'm not over you
