

Now That We're Done

Tessa Violet

I'm embarrassed to say I still think about you
Every day
Little things like "catsup" and "ketchup"
Keep catchin' me
I bookmarked something you might like
Oh how creepy I've become
But you don't think about me
Now that we're done

I wanted to say "I wish you were here"
But, that'd be weird
I wanted to tell you the pupp at the park says
"Bark, bark, bark"
And you would laugh and text me back
A joke that'd be outdone
But you don't think about me
Now that we're done

I'm just old news
I guess this means you've won
Losin' is no good, the winners get the fun
You don't think about me
Now that we're done

And when I'm alone
I can't think but help wish that
You were here
And maybe when you said "That's it"
You meant "I care"
And you might call and say you miss me
I'm your honey-bun
But you don't think about me
Now that we're done

I'm just old news
I guess this means you've won
Losin' is no good, the winners get the fun
You don't think about me
Now that we're done
You don't think about me
Now that we're done
