

Messenger

Tesseract

Your smile's giving me all that you know
I'm your design
Voices explode in the dark
Don't shoot the messenger
It's not our fault

Your words weighing me down
Smother me
I'm your design

Do you know
I'd take an empty road?
But it's too dangerous to explore
Is your world much safer than before
Because I don't feel whole?

Destroy entire worlds [2x]

Enter into the sound
I'll behave for you
Casting fear into doubt
I was made for you

Apathetic interaction
Another distraction
A lack of compassion
For the weak that you don't see

Hopelessly I

Can you see the flood?
Can you feel the urgency?
Can you see the sunset
Behind the willow tree?

Apathetic interaction
Another distraction
A lack of compassion
For the weak that you don't see
