

Ishtar's Gate

Testament

A goddess of both love and war
The lion and the star
Safe behind the golden gates
Protection from this world

Queen of the underworld
Long may she reign
Queen of nocturnal wars
Obey
You've gotta hold on
It won't be long
A kingdom without a crown
Blood stains the walls of Babylon

Protected by the demi Gods
The Dragon and the Bull
Symbolic of aggressive forces
Lock the golden eight

Queen of the underworld
Long may she reign
Queen of nocturnal wars
Obey
You've gotta hold on
It won't be long
A king without his throne
Blood stained the walls of Babylon

A kingdom built to last forever
Purify the blood of the slaves
For Ishtar's Gate

Queen of the underworld
Long may she reign
Queen of nocturnal wars
Obey
You've gotta hold on
It won't be long
A kingdom without a crown
Eight gates protecting Babylon
