Ride

Testament

Doesn't know what to do anymore
Jesus makes love to the spike
A trick for a fix and feeling so sck
Just can't seem to get right

Once he was the king of his world A world without any order Sold it all without thinking twice Just for a spoonful of water

Ride, ride on through Ride, ride through you Ride, ride on through Ride, ride through you

Ceremonious ritual
Raising of the veins
Always early and feeling so late
Waving goodbye to the rain

Ride, ride on through Ride, ride through you Ride, ride on through Ride, ride through you

Slowly scratching away at the world Fearless when he is stoned Obsessed by dreams of what could've been Trapped in his kingdom alone

Ride, ride on through Ride, ride through you Ride, ride on through Ride, ride through you
