Souls of Black

Can't you see That in the world we live in Political lies Are just corporate decisions They'll take away All the hopes, not their promises They'll put an end to this Land of the livin

Look at the lost souls They seem so black Look at the lost souls Souls of black

They got control Of the heart of a nation Their social tribes Seem so graciously As time goes by 'Cause time as you came see Will slowly die for you and me

Look at the lost souls They seem so black Look at the lost souls Souls of black

So put an end To this idolization Antagonizing so commonly Open your eyes 'Cause the lie's there so plain to see Life goes on There's no guarantees

Look at the lost souls They seem so black Look at the lost souls Souls of black

They're bleeding so black

Testament
