

# Won't Let You Down

Texas

You know I can stay  
To see you that way  
A life don't mean nothing at all  
If you don't stay  
It's clear I was wrong  
So decide what to do  
Not sure if you care anymore  
Now it's all up to you

Fallen out of bus when I see you  
You can hardly wake up when you need to  
Maybe it's just a time you just have to face today

And I, I won't let you down  
And I, I won't let you down

You're alone every night  
Trying to hide all your lies  
Twisting 'em up like little voice  
While you're dying inside  
You gave up your friends  
The thing that you'd be set free  
But now you can take a step forward  
And put your trust in me

Fallen out of bus when I see you  
You can hardly get up when you need to  
Maybe it's just a time you just have to face today

And I, I won't let you down  
And I, I won't let you down  
And I, I won't let you down  
And I, I won't let you down

Fallen out of bus when I see you  
You can hardly get up when you need to  
Maybe it's just a time you just have to face today

And I, I won't let you down  
And I, I won't let you down  
And I, I won't let you down  
And I, I won't let you down
