

Lose Each Other

Teyana Taylor

We don't have to lose each other
We can still b friends if you wanna
Baby all these ultimatums
Makin me feel like we faked it
I'll still go and see your mother
I'll still check up on your brother
I meant it when I said I loved ya
And love don't jus go away baby

We don't have to lose each other
I'm the only one that knows ya
What am I supposed to do if I can't hit you when I need you?
Just cause I can't handle love don't Mean I wanna leave you

We don't have to lose each other
You could still text me sometimes
I could still slide thru to your crib on some midnight shit in
a bottle of cheap wine

We don't have to lose each other
I don't know what ima do without you no no no We're more than j
us used to be lovers I thought we were friends...
This don't gotta end
This don't gotta end
This don't gotta end
This don't gotta be the end
The... end
