

East of Java

The 5th Dimension

Java girl
In your arms, I found
The best of the world
Java girl
For your love, I'll need
The rest of the world

Somewhere east
East of Java

An ember moon lights up the skies
And there a pair of almond eyes
Look out to sea
And search for me

Java girl (Java girl)
Never more, will I
Go sailing away (Go sailing away)
Java girl (Java girl)
With my heart in hand
I'm coming to stay

Somewhere east (East)
East of Java

An ember moon lights up the skies
And there a pair of almond eyes
Look out to sea
And search for me

The rest of the world
Java girl
Go sailing away

Somewhere east (East)
East of Java (Java)
Somewhere east (East)
East of Java (Java)
Somewhere east (East)
East of Java (Java)
Somewhere east (East)
East of Java (Java)
Somewhere east (East)
East of Java
