

The Sailboat Song

The 5th Dimension

I'm on a sailboat ride
See how she takes the wind
Sea's rolling off her side
Far from where the tide comes in
I let the sea take me places I never have been

Stars dance upon the night
Clouds balance on the wind
The phosphorescent light
Of waters I can wander in
I let the sea take me places I never have been

There's someone by my side
Soft as a breeze from land
As sweet as wake is white
Oceans sleep within her hand
I let the sea take me places that I understand
