

## There Never Was a Day

The 5th Dimension

Oh if our dreams could have only been the same  
Someday might have found a place for us  
She wanted a home and a family  
But as hard as as I tried  
I just couldn't see that life for me

There never was a day  
I didn't love her  
There never was a day  
I didn't need her  
But there never was a day  
I didn't want to leave

And now the seasons of my life have changed me  
Time has melted all my madness like snow  
I have chased the sun and I have felt the rain  
While thinking of the girl  
On the road I didn't take

There never was a day  
I didn't love her  
There never was a day  
I didn't need her  
But there never was a day  
I didn't want to leave

But if I had those days to live again  
I don't believe I'd change a thing  
But I still miss the girl  
On the road I didn't take

There never was a day  
I didn't love her  
There never was a day  
I didn't need her  
But there never was a day  
I didn't want to leave

If I had only stayed
