

## Crippling Poison

## The Acacia Strain

So apologetic  
Our sorries are an epidemic  
We will forgive  
We have forgotten  
Penance paid, all for nothing

Total fucking failure

Final nail in the coffin, we failed  
It's the final nail in the coffin, we failed  
Final nail in the coffin, we failed  
It's the final nail in the coffin, we failed

My hearts beats through my chest  
I'm a fucking mess  
I'm going through some shit  
I feel fucking sick

I don't feel well  
I'm just not myself

Final nail in the coffin, we failed  
It's the final nail in the coffin, we failed  
Final nail in the coffin, we failed  
It's the final nail in the coffin, we failed

Final nail  
Final nail
