

Holy Walls of the Vatican

The Acacia Strain

I am a nonbeliever
I would shit on Virgin Mary if she ever let me see her
I am a nonbeliever
Weakness is asking forgiveness from your father
Pray for rapture because you lack a spine
A friend of the devil is a friend of mine

This building is condemned
I have nothing but contempt
You have 30 days to vacate the premises
It ought to be a crime
It's your god or your goddamn mind
Tear it down or I'll burn it to the ground

I tried playing god, but I ceased to exist
I have no soul, I am soulless
Read no bibles, worship no false idols
Unborn Jesus, abort the holy fetus

Hear them pray
Hear them pray
Hallelujah, you won't be saved
Hear them pray
Hear them pray
Hallelujah, you won't be saved

On your knees
Worship the beast
The goat will be greeted with the swarming of bees
I am the fear
I am the light
I am the nothing, body of Christ
On your knees
Worship the beast
The goat will be greeted with the swarming of bees
I am the fear
I am the light
I am the nothing, body of Christ

Hear them pray
Hear them pray
Hallelujah, you won't be saved
Hear them pray
Hear them pray
Hallelujah, you won't be saved

Throwing rocks through the windows of your shrine
I will bathe in the blood of Christ
You would sacrifice your first born to avoid a pit of fire
You call me a heretic, I call you a liar
Bitch

I am a nonbeliever
