

## Stay puft

### The Acacia Strain

Don't sleep with your back to me  
Keep your eyes shut, keep your mouth shut  
All beause you couldnt keep your legs shut.  
I broke it off while she choked to death.  
She screamed my name with her final breath  
Bring me your head on a silver plate

(Chorus)

I don't need real friends  
I don't need true love  
There are no real friends  
There are no true loves

I don't break promises  
I don't break hearts  
I'm busy breaking backs  
Get the fuck over yourself  
I have brought this thing for revenge  
Get the fuck over yourself  
I have brought this thing for revenge

(Chorus)

I am the heartless monster  
And I'll burn your fuckin' house to the ground  
I will bury you alive  
And tear your fucking soul apart  
APART!
