

# Survivors

## The Afters

We might be  
Push down but we still breathing  
Heart broke but it's still beating  
Knocked out but not defeated

We might be  
Lights out but we're on fire  
Burning it down to the wire  
Won't stop cause we are fighters

We are survivors (We are survivors)  
We are the fighters (We are the fighters)  
We, we know who we are  
We know who we are  
We are survivors (We are survivors)  
We are the fighters (We are the fighters)  
We, we know who we are  
We know we are survivors  
Survivors, survivors, survivors

We might be  
Slowed down just for a moment  
A little bent but we're not broken  
Wounded but we still going

We might be  
Burning like wildfire  
With our eyes of the tiger  
We're always reaching higher and higher

We are survivors (We are survivors)  
We are the fighters (We are the fighters)  
We, we know who we are  
We know who we are  
We are survivors (We are survivors)  
We are the fighters (We are the fighters)  
We, we know who we are  
We know we are survivors  
Survivors, survivors, survivors

Until the earth shakes under our feet  
And the stars crash into the sea  
When the night falls down to its knees  
We'll be the last ones standing  
Last ones standing here

We are survivors (We are survivors)  
We are the fighters (We are the fighters)  
We, we know who we are  
We know who we are  
We are survivors (We are survivors)  
We are the fighters (We are the fighters)  
We, we know who we are  
We know we are survivors

We'll be the last ones standing  
Last ones standing here

We, we know who we are  
We know who we are  
We'll be the last ones standing  
Last ones standing here  
We, we know who we are  
We know we are survivors
